ZEMBU® MAX

HERBICIDE

Introductory Guide

Field Treated with ZEMBU MAX, 2025

Now Registered for Use in California

ZEMBU MAX Benefits

Expect the Same Superior Efficacy as ZEMBU

- Preemergence control of several important grasses, sedges, and broadleaf weeds
- **Refined and concentrated formulation, bringing the following additional benefits**:
  - Further improved crop safety
  - Improved worker safety
    - Signal word lowered to "Caution"
    - Reduced required PPE
    - Less packaging for quicker, easier handling
  - Paper packaging for easier disposal

Label Information

- **Active Ingredient:** Pyraclonil
- **Use Rate:** 8.1 lbs/A
- **Application Timing:** Day of seeding
- **Packaging:** 40.5 lb bag
- **Application Method:** Granular applied by air
